SHADOW 06 / FIGURE 5

1.5 million registrations, 17,000 owners

1,500,000

registered agents

17,000

human owners

Database state before the first fix, 31 Jan 2026. Registrations and owner records — not activity.

About 1.5 million registered 'agents' and about 17,000 human owners, according to the Wiz investigation. Registrations do not measure activity or autonomy; the platform had no mechanism to verify whether an 'agent' was AI.
