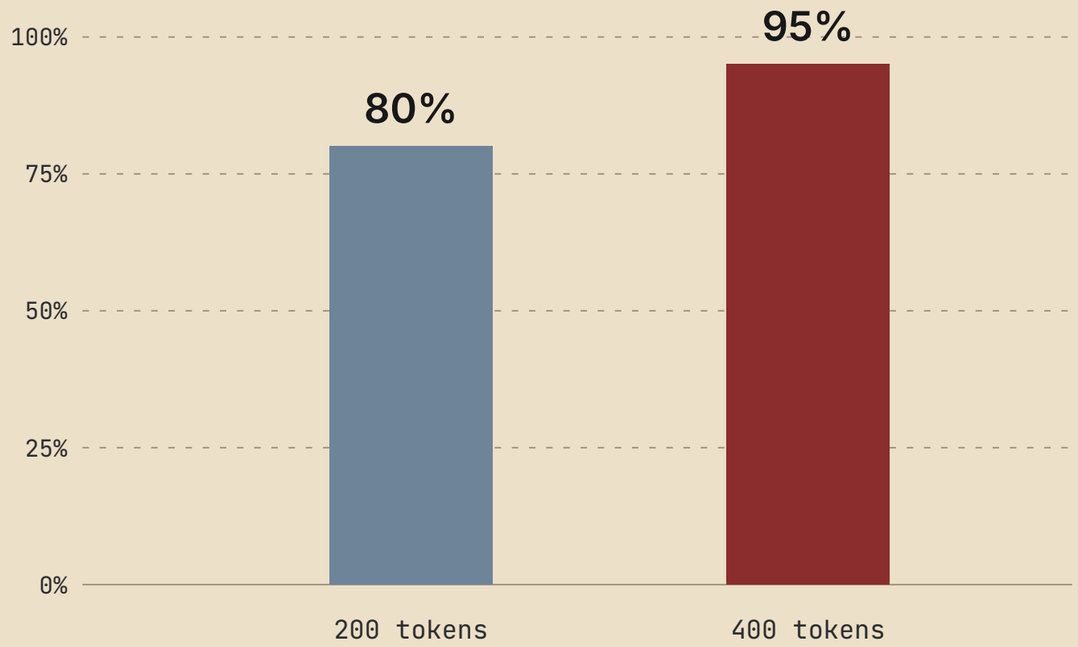
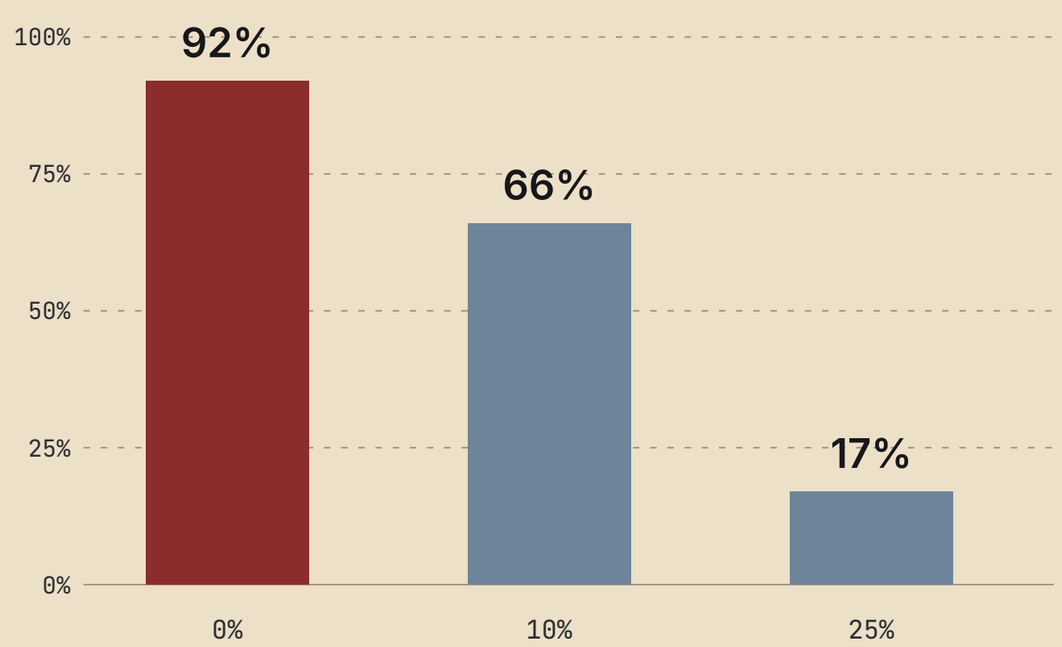
SHADOW 06 / FIGURE 5

How a text watermark fades

A / LENGTH



B / EDITING



In OpenAI's own evaluation on English ELI5 answers at a 1% false-positive target, replacing a quarter of the words with synonyms reduced detection from 92% to 17%; detection was substantially lower for mathematics.

Provider's own evaluation; CSV length rows are labelled psychology content.

SOURCE OpenAI, 'Our approach to EU text provenance rules', 5 Oct 2026 — provider's own evaluation.
