SHADOW 06 / FIGURE 6

Three labs, one table

FIELD	ANTHROPIC	GOOGLE	OPENAI
Image/video/audio mark	C2PA signatures on supported generated files; separate multimedia watermark not found	SynthID	SynthID + C2PA
Text mark	A version of SynthID-Text on supported models; worldwide subject to support	SynthID-Text	textGrain; ChatGPT/Codex default EU-only; API opt-in
Hosted detection access	Files: free content checker + C2PA tools; text detection API private preview	Portal for media; stated access limits	Images/audio public + API; text detector researchers-only
Detector source code	Not found	SynthID-Text reference code public	Announced intent to open-source
Published text robustness figures	Not found	Yes (Nature 2024)	Yes (provider's own evaluation)
Self-stated limits	Short text weaker; mark is not complete authorship; missing credentials not human origin	Not a general detector	No definitive conclusion when no signal

NOTE

Anthropic column verified by GPT (OpenAI model) under the issue's conflict-of-interest protocol; figures come from different implementations, corpora and operating points — no ranking is implied.
