SHADOW 06 / FIGURE 8

Why ad-fraud figures do not add up

VENDOR	REPORTED FIGURE	PERIOD	UNIT	SAMPLE	EXTRAPOLATION
Spider Labs P-A G13	5.58% fraud rate; $25.3bn	H1 2026 (half-year)	paid clicks	4.006bn paid clicks (vendor customers)	global half-year extrapolation
Fraudlogix P-A G18	20.64% flagged invalid	2025	impressions	>105bn impressions (vendor network)	none stated
DoubleVerify P-A G17	+140% CTV fraud schemes and variants	Q1 2025 to Q1 2026	identified schemes	vendor detections	none
Thales/Imperva P-A G01;G02	53% automated traffic; 40% bad bots	2025	web requests	vendor-protected traffic	none
HUMAN P-A G06	automated traffic growth 8x human growth	2025	traffic growth rate	customer traffic	none

CAPTION

Vendors measure different things — clicks, impressions, requests, schemes — over different periods and samples. The figures are not a range for one quantity.

SOURCE Supplied Pack 02 · F8_vendor_methods.csv · ledger IDs beside each vendor · vendor data.
